Experience

MyFitnessPal • Austin, TX 2/2024 - 7/2026
Senior Product Manager

- Oversee the Premium product for a B2C health and wellness app, making up 90% of the $300M yearly revenue
- Led the Growth Team across Engineering and Product Design, translating technical architecture and product tradeoffs into actionable direction for non-technical stakeholders, while driving adoption across conversion funnel, Premium product segmentation, and promotional initiatives
- Partnered with Engineering to map 50+ ingresses and develop a Claude-powered AI Skill that migrated screen navigation logic within the paywall infrastructure, driving a 10%+ lift in paywall conversion and reducing development time by 67%
- Owned end-to-end payments and subscription data platform serving Finance, BI, Executive Leadership, Product, Engineering, Marketing, and Customer Support across the company
- Redesigned and launched a new paywall pricing structure, driving a 5%+ lift in trial conversion rate and generating $1.8M in incremental revenue.
- Built and scaled a promotional offer redemption flow across web and mobile, unlocking $12M in incremental revenue through marketing partnerships and lifecycle campaigns.
- Partnered with Apple to implement StoreKit retention APIs, improving subscription retention and delivering $2M in incremental revenue.
- Acted as business owner and decision-maker for data schema evolution, event definitions, and backward-compatible versioning; partnered with stakeholders to define required fields and ensure long-term data stability.
- Collaborated with Engineering, Finance, and Legal to launch a real-time refund processing system, reducing refund processing time and decreasing monthly refunds by $40,000.
- Partnered closely with Data Engineering and BI Engineering to deliver trusted data into Snowflake and S3, supporting Tableau dashboards, downstream analytics, and executive reporting.

MyFitnessPal • Austin, TX 11/2021 - 2/2024
Product Manager - Growth

- Managed Agile ceremonies for a team of 10+ engineers across mobile, backend, and web, consistently delivering against roadmap OKRs.
- Delivered a redesigned upsell and registration flow, increasing annual trial starts by 30% YoY and boosting onboarding conversion by 7%.
- Partnered with external marketing and BD teams to launch bundled promotions and grow a new

subscription-based revenue stream.
- Led the implementation of in-app messaging and personalized sign-up experiences across mobile and web, improving customer engagement and trial activation.
- Integrated new payment APIs and compliance updates in coordination with Engineering and Legal teams, supporting international growth and fraud prevention measures.
- Built analytics dashboards to track funnel performance and key metrics across payments, registration, and subscription conversion.

MyFitnessPal • Austin, TX 12/2020 - 11/2021
Associate Product Manager - Growth

- Managed the product launch and rollout activities for product upsell optimizations, resulted in an increase in revenue of 4% year over year
- Liaised with client and engineering teams and worked with data analytics to deliver compliance initiatives that reduce involuntary churn, reducing the number of turnover subscriptions by 10%
- Fostered communications with stakeholders to redesign premium subscription features for a seamless mobile experience to attract new users and develop tools for existing users
- Established plans for new innovations by researching best practices and gaining feedback on product strategy to ensure proper improvements
- Oversaw direct marketing campaigns and researched appropriate advertising opportunities to build vendor relationships and customer base
